Hi

I am called Elizabeth Okumu. I have been in the Maranatha Church since the year 2006. I have known pastor John from the year 2014 as a pastor. I saw that there was a conference coordinated by him to be held on 26 of this October in a hall just minutes from where I live, so I decided to and hear. Actually I have been a Christian and been [in] the church choir for the whole time [since] I joined my church. The pastor I heard on the phone called David joined [us] after a morning teaching and started sharing the word. Though I had never seen him, [he] started sharing with us about himself and the word. I was so much enjoying and with him every bit. I learnt there is some part of the truth that we are not fed in our church, that [this] servant of God opened up and shared with my Spirit. I have been living with fear because, after being baptized, I was told that was righteous. But I learnt that a component of the body of Christ that I should have, when the pastor read the book of John 14:26, that we should not fear because a helper will be sent to us to help in everything.

I hated living in fear of things, that I hoped for and even sickness or death. I started meditating in my heart inwardly for God to give me a helper in my life, and as this went on I started feeling the power in me and everything was looking much easier to me.

I am happy that through this conference I was able to get to another level of this long walk and I have received the Holy Spirit in my life. I request pastor David to come here and preach these word to us.
