Praise God

I am happy to take to this time to with [and tell] you [of] the new freedom I have found. My name is Musa Mohamed, and I come from Rongo town. I have been a Muslim [all] my life, although I have not been always attending the mosque services for over three years now. I was brought up in Islam and since a young boy I [have] been in that faith. I have been in contact with pastor John for time because of [his] being humble and he always told me that "whatever you believe in should not [draw] us apart, but we should always live in a brotherly way" and through this has made me always be with him.

I, Musa, have been dealing with the spirit of witchcraft, where I would use the spirit of Darkness to confuse people that I treat with and make their businesses prosper. I have never believed in Jesus because my grandfather, Odel, used to tell me that He was only for the white skin people and believed that people with black skin will never benefit either. I received phone call of John on Thursday the 24th, that he had a guest from USA to talk with people, so I went.

I went there to see how the Christians do their teachings and services, because they were one people we regarded as confused. When the teachings went on I felt things getting louder and more, [and] just then I started feeling like my whole body was on fire and [I] began sweating. I was there following every [word] that this pastor who introduced himself as David Zebrowski would say, and it's like I was all alone in this big hall with the speakers so loud in my ears. Pastor David talked about so much how the Word of God has been and is working since the time of creation, so as he went on I was closely following it all. The pastor [then] read the book of John 3:16, that God loved the world and allowed his son to come and die, and I started wondering how much this love was, that someday had to die to save the rest. At this moment [David] went on to say that it was for the people who never believed, that made Jesus to die. And this book of John 5:19-24 made me have a strong Faith that God can also forgive [me] no matter what.

This brought a big war in me and as pastor David kept talking to me, I started shaking in fear with my mouth trembling and I started seeking for forgiveness. I later on Monday called pastor John to my house and when we met, I told him that I accept Jesus Christ in my house and even promised to go the church with him.

I leave all that I have been walking through and will go to church.

I am blessed for this conference.

Musa
