Praise the Living God.

By names I am called Elder Enosh Angila. I am one of the elders of Lejoh church. I got a phone call invitation from my longtime friend Pastor John, that he was holding a conference in Rongo Catholic church hall. I have been a follower of Jesus Christ for some time and I just believed in tithing and helping the poor, because that [is] what I have always been taught that is the righteous prayer [and labor] which will lead me to eternal life.

When I met the voice of pastor David preaching [I] was so amazed at the first, [what] he was talking about, and there I started questioning myself if he was really a true teacher of the Word. But when I was following him closely he was giving out Bible verses, which I was checking on my kindle if it was really from the Bible, because I have never heard such kind of teachings, and this pulled me and attracted to him. I have never heard of spiritual baptism which even pastor [John] majored on in the morning teachings, and when it was time for this stranger, his teachings were also supporting the first [instruction]. This is when all these were going on [that] I started knowing that this is what Jesus left, [] a Helper to lead me and be my weapon, as the pastor [taught] it.

I have been transformed through prayers of what I [received]. I [spoke in another] “language” and when I shared with close friend pastor Ayoo of VOSH church, he told me it was [the] language you speak when you receive Holy Spirit. I on Wednesday went to pastor John who confirmed it and later asked me to write a testimony of what has happened in my New life. I agree that I was lost unto teachings that I never knew and now I am joyous in Jesus.

Amen
